

Divide each number line into the correct unit fractions.
Then label each point. Then use loops to show the target fraction.

1 $\frac{1}{3}$ 2 $\frac{7}{8}$ 

Locate each fraction greater than 1 on the number line.

3 $\frac{7}{4}$ 4 $\frac{4}{1}$ 5 $\frac{6}{3}$ 

6 Explain how you located one of the fractions from Exercises 3–5.

Solve the problem. Label your answer.

- ① Aisha packs 40 books for the media center. She puts the same number of books into 8 boxes. How many books did she put in each box?
- _____

Divide each number line into the correct unit fractions. Then label each point. Show the target fraction by looping the unit fractions that make it.

- ⑥ **Stretch Your Thinking** Use the numbers 3 and 4 to make a fraction that is greater than 1 and a fraction that is less than 1. Explain how you made your fractions without a number line.
