

**READ THE PASSAGE** Find out what information is given in the passage and what information is given in the graph.

## Treats from Trees

Chocolate trees do exist. They are called cocoa trees. Pods shaped like footballs hang from the trees. The pods hold very bitter beans. Workers and machines turn the beans into sweet chocolate. People all around the world love to eat chocolate.

Who Eats the Most Chocolate?

**SKILL PRACTICE** Read the item. Write your response.

1. Do people eat chocolate right off the tree? How can you tell?

---

---

2. How many nations are shown on the graph, and what are their names?

---

---

3. What kind of information is given in the text but NOT the graph?

---

---

**STRATEGY PRACTICE** Name two ways that information is presented in the selection.

---
