**Directions:** Read the text, and study the map. Answer the questions.

This map has a grid. Grids are used to help you find things on many maps. Numbers and letters are used for grids. Find the little house on this map. First, look across the bottom of the map for the letter that is in line with it (O). Then, look up the side of the map for the number that is in line with it (6). The little house is at points O, 6 on the grid.

- What would you find at F, 3?
  - a forest
  - mountains
  - ocean
  - a pond
- What are the grid points for the two large houses?
  - H, 3 and N, 5
  - E, 7 and I, 1
  - F, 7 and O, 2
  - J, 5 and C, 4
- Why are grids used on topographic maps?
